Dear Colleagues,

On behalf of MPPI and organizing committee, it is our pleasure to invite you to the **9th Annual Conference of Molecular Pathology Association of India, MPAICON 2022** to be held from **6th & 7th August 2022** at **Narayani Heights, Ahmedabad**.

The Theme of the conference is **“Precision Medicine: Healthcare for All”**.

In the Past decade, Molecular Pathology has changed the way we diagnose, monitor or prognosticate disease, or guide its treatment. Moreover most biologics which are being launched now have an accompanying companion diagnostic test and much progress has been made in this domain. This has brought researchers, pathologists and clinicians closer than ever before.

However, the awareness about the pervasive nature of molecular diagnostics and its application in daily clinical practice need to be taken to many more clinicians in India and MPPI is working in mission mode to achieve this objective at a fast pace.

MPPI has woven a multi-disciplinary scientific programme will showcase molecular pathology with clinical applications in oncology, genetics and infectious diseases.

The conference brings together a network of molecular professionals and representatives of the diagnostics industry to educate healthcare practitioners and to advance the value of molecular laboratories in providing high-quality patient care.

Looking forward to welcoming you at the Ahmedabad conference.

Thanks & Regards,
